Roosevelt To Fight For Delegation

IN NEW YORK STATE

Regards Gov. Hughes As Ingrate—Parsons to Lay Ground-Work of Battle for the Presidency of the Country.

Washington, D. C., May 13.—President Roosevelt and the members of his administration are delighted over the defeat in the New York State Committee of ex-Gov. Odell's resolution making Hughes a Presidential candidate.

Representative Parsons will lay the groundwork for securing control of the state for Roosevelt.

Schwab, Tired of Living in Palace, to Sell New York, May 13.—Charles M. Schwab is to sell the \$3,500,000 palace he built in Riverside drive. It was his dream to have a mansion that would make New York marvel, but realization has not brought happiness.

ITALIAN BALL PLAYERS WERE TOO STRONG

Defeated a Goddard Base Ball Team Saturday Afternoon by the Score of 10 to 3.

The Italian Athletic Club base ball team defeated the Goddard seminary second team on the Goddard campus Saturday afternoon in a rather loosely played five-inning game by a score of 10 to 3.

The Goddard team was strengthened by the addition of several players from the first team but was unable to cope with the athletic club's heavier team and Walsh's curves were not of the right kind to fool them and this combined with costly errors at critical times made a walk-over for the Italians.

The Italians scored five runs in the first inning, but were retired in order in the next three and added five more runs in the fifth and last inning before the side was retired.

Goddard made two tallies in the first inning, one of them being a home run by Henry who landed far on one of Gabeloni's drops lofting it clear of the outfield and over the hill. Goddard scored again in the second, but after that was unable to get a man farther than first.

McDonald, Goddard's short stop, was hit in the forehead by a pitched ball in the second inning and retired from the game, the ball cutting a deep gash over his left eye.

Batteries, for Goddard seconds, Walsh and Alexander; for the I. A. C., Gabeloni and Commelli. Gabeloni struck out six men and Walsh three.

Score by innings: I. A. C. 1 2 3 4 5 6 7 8 9 10 Goddard 2ds. 0 0 0 0 0 0 0 0 0 0

Saturday's National League Games

At Brooklyn—(1st game)—Brooklyn 1, Chicago 0; (2nd game)—Chicago 2, Brooklyn 0.

At Philadelphia—Philadelphia 5, St. Louis 4.

At New York—New York 9, Pittsburgh 6.

TWENTY DEAD OTHERS INJURED

Wreck on Southern Pacific Railroad Saturday

SHRINERS PASSANGERS

Most of the Killed Riding on Buffet Car and Dining Car—Accident Occurred at Honda, Cal.

Santa Barbara, Cal., May 13.—Many Mystic Shriners were killed and injured in a wreck on the Coast line of the Southern Pacific railroad at Honda early Saturday afternoon.

The latest report places the number of dead at 21, with about 40 injured. Most of the victims were Shriners from the east and middle states who were returning from the Frisco convention.

The first authentic news of the wreck at Honda was received at Santa Barbara Saturday evening in a message to the railroad officers, stating that the dead numbered 21. On the same authority, most of the killed were riding in the buffet car and the dining car. It is now known that the train wrecked was the second section of train No. 21, which left Santa Barbara at 12:10 P. M. Saturday, and was scheduled to arrive at Surf, three or four miles from the wreck, at 12:30. The train was composed of seven passenger cars.

Railroad advices received later are that a special train bearing 21 dead and 30 injured would arrive at 9:25 (12:35 eastern time) Saturday night from the wreck at Honda. Many of the seriously injured have been taken to San Luis Obispo.

Dead in California Wreck. S. A. Wasson, Buffalo. Mrs. Fisher, Cleveland. Miss Young, Cleveland. Charles Loving, Buffalo. Mr. Austin, tourist agent. F. W. Hippie, Reading, Pa. V. Stoffe, Reading. George Hagaman, Reading. Harry Sloss, Reading. Harry Miller, Reading. T. Roth, Reading. H. Henry, Lebanon, O. J. W. Cutter and wife, residence not given.

Boston Shriners Not in the Wreck. Boston, May 13.—It was stated Saturday evening that the Boston Shriners who attended the Frisco convention had left that city early Saturday morning, some time ahead of the wrecked train, and that, therefore, none of them were in the wreck.

FOUNTAIN FOR BENNINGTON

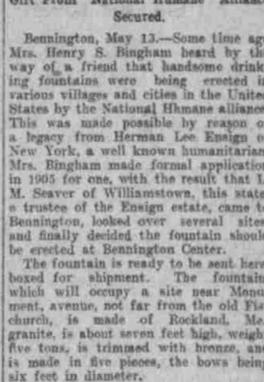

Gift From National Humane Alliance Secured. Bennington, May 13.—Some time ago Mrs. Henry S. Bingham heard by the way of a friend that handsome drinking fountains were being erected in various villages and cities in the United States by the National Humane Alliance. This was made possible by reason of a legacy from Herman Lee Ensign of New York, a well known humanitarian. Mrs. Bingham made formal application in 1905 for one, with the result that L. M. Seaver of Williamstown, this state, a trustee of the Ensign estate, came to Bennington, looked over several sites, and finally decided the fountain should be erected at Bennington Center.

The fountain is ready to be sent here, boxed for shipment. The fountain, which will occupy a site near Monument, avenue, not far from the old First church, is made of Rockland, Massachusetts granite, is about seven feet high, weighs five tons, is trimmed with bronze, and is made in five pieces, the base being six feet in diameter.

NEW POLICE CHIEF

James H. Evans Chosen By Village Balliffs at Brattleboro, Vt. Brattleboro, May 13.—James H. Evans is Brattleboro's new chief of police. Mr. Evans received the appointment last night at a meeting of the board of village balliffs.

Mr. Evans was the regular police officer two years. He served two years as a special officer before his appointment to the regular force. He was born in West Arlington July 29, 1872. Sixteen years later he went to Stratton and worked there six years. He spent the next two years in West Wardboro, where he married Miss May Parsons March 5, 1892. He came to Brattleboro from Dover four years ago to work for the Estay organ company. He has a son and a daughter.

NEW HAVEN-B. & M. DEAL

Now Closed, it is Asserted on Goud Authority

IS DENIED BY TUTTLE

Mellen's Coup Successful—Say President Tuttle Consents—New York Central Gives Valuable Trackage Rights to New Haven.

New Haven, Conn., May 13.—The reported future control of the Boston & Maine railroad system by the New York, New Haven & Hartford Railroad company appears to be fully confirmed here by men closely identified with the New Haven system. The deal involves at some future time an exchange of stock, share for share practically, though possibly through the medium of an intermediary company. Some weeks are likely to elapse before the arrangement is fully carried through.

It is also stated that the proposition has the support of President Lucius Tuttle of the Boston & Maine road and his directors upon the one hand and of the New York Central and its allied interests on the other.

In connection with the deal it is also understood that the New York, New Haven & Hartford will secure considerable trackage rights over the Boston & Albany.

"Absolutely No Truth in Story," Says Tuttle. "There is absolutely no truth in the story that the Boston & Maine is to be taken over by the New Haven road," said President Tuttle of the Boston & Maine last night when his attention was called to the positive statement that the proposition not only had his support but the support of the directors of the road and of the New York Central.

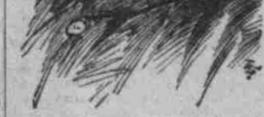

"I don't know of a single case where a stockholder has turned over his shares," he added.

AT LAST COLUMBIA HAS WINNING CREW.

Beat Harvard Garsmen By Half a Length in Stirring Race on the Charles River.

Boston, May 13.—Columbia defeated the Harvard varsity crew by three-quarters of a length on the Charles Saturday afternoon. The distance was one and seven eighths miles and the winner's time 9m. 16s.

A big lead was obtained by the visitors early in the race, and proved too much for the Crimson varsity to overcome, although they made a magnificent fight in the last half.

LOUIS BOTHA.

well at the railroad station at London testified to the general popularity. General Botha was especially summoned to Buckingham palace Saturday to bid farewell to King Edward.

How Much Could You Get For Your Farm? You are a farmer. You live near this town. You own land. Let us say that you own more than you need and would like to sell a hundred acres. How much could you get per acre? Land values have risen lately. But has the value of your land risen as you think it should? Your land is good land. You think it is worth considerably more than anybody has offered you. Well, let us see. A man buying farm land naturally prefers to locate near a thriving up to date town. He wants good home markets for his crops. He wants good schools. Let us say your land is three miles from town. A farm that looks very much like yours is three miles from a town twice as big and twice as prosperous as this town. If you were going to buy a farm for your own occupancy, wouldn't you pay a whole lot more for land near the town that is twice as large and twice as lively? Of course you would. It would be good business. Now, what makes a town big and bustling? Money. Money in circulation. Not in circulation in Chicago, for instance, but right in the town that wants to grow. How much money have you sent to the big Mall Order houses in the city the past ten years? How much have your neighbors sent? How much have all of you together put out of circulation here at home? It is probably beyond calculation. If all that money had been spent in your own home town, isn't it reasonable to assume that the town would have grown more than it has grown? Wouldn't this town be a bigger and better town? Wouldn't it have more stores to buy your produce? Wouldn't it have more public improvements to make it more attractive to outsiders who might come here to live, to go into business, or buy your surplus land at a good figure? TO TRADE AT HOME MEANS TO HELP THE TOWN AND THE NEIGHBORHOOD. TO HELP THE TOWN AND THE NEIGHBORHOOD MEANS TO HELP YOURSELF.

The instinct and habit of 4600 years have proved wheat the one absolutely necessary food for man. Latter day science has proved the soda cracker to be the most nutritious of all wheat foods. Modern skill has given to the world Uneeda Biscuit, the only perfect soda cracker. 5c In dust tight, moisture proof packages. NATIONAL BISCUIT COMPANY

THINGS THEATRICAL

Marie Doro, who has been William Gillette's leading woman this season, is to be starred next year in the London success, "The Morals of Marcus."

Thomas Jefferson has arranged to give "Rip Van Winkle" in French, and has secured dates to appear in Paris next season with an American company.

"Brewster's Millions" is soon to be produced in Australia under the management of J. C. Williamson, who has secured the rights from Thompson & Dundy.

A new play dealing with American politics, entitled "The Undertow," has been produced in New York. It contains some excellent scenes of newspaper life.

Maurice Campbell has a new play for Henrietta Crossman, entitled "Beauty." Whether the piece is to interfere with the proposed production of "Pillgrim's Progress" is not stated.

Henry W. Savage will produce in this country next season an English version of "The Jolly Widow," the successful musical comedy which has been running in Vienna for two years.

Rida Johnson Young has been given a commission by Daniel Frohman to write a comedy on modern American life for the Lyceum theater, New York. The play will be produced next season.

CHURCH AND CLERGY.

The number of communicants of the Methodist Episcopal church in this country is 2,839,000, a net increase of 88,000 over the preceding year. The state containing the greatest number of Methodists is Ohio.

A St. Louis church has a penny bank, election lessons, an entertainment course, a military class, a class in English, a sewing school, a cooking class, a church bookstore, a reading room, a chorus class, a legal bureau and medical attention.

The bishop of Oporto is the only bearded Catholic bishop in the world. He had to obtain express permission from the pope to wear his hirsute adornment, and his unprecedented request was granted in recognition of his great success on behalf of the church in Africa.

Rev. Dr. William Milton Hess, rector at Yale university for three years, has received a unanimous call to take the pastorate of the Trinity Congregational church, New York city. He has resigned his position at Yale, to take effect at the end of the present college year.

Ancient Stained Glass. In the British museum there is a beautiful piece of stained glass with an engraved embossment of the monarch Thothmes III, who lived 3,400 years ago.

Deer in Japan. Deer are relatively plenty in various parts of Japan and in such show places as Maru and Miyajima are held as sacred, becoming so tame as to eat from the hands of visitors. They are generally smaller in size than the American deer.

Irish Moss. From carrageen, or Irish moss, is made an insignias, formerly much used for stiffening blanchings and still greatly esteemed in Ireland as a remedy for consumption. Irish moss is a plant about a foot high, with a fan shaped leaf.

Fleas. Fleas will never touch an epileptic and will instantly leave a dead or dying person.

Severus of Rome. Several of the Roman emperors visited Britain, but one died there. This was Severus, who died at York Feb. 4, A. D. 211. The great tumulus remaining at York is shown as his funeral pile. His ashes were taken to Rome.

A "Literary" Event. A notable "literary" event at London was the banging at Tyburn on Feb. 20, 1749, of two young Irish poets, Esler Gahagan and Terence Conner, "for filling the soul of the realm," then considered high treason.

Dulse. Dulse is more frequently eaten than any other seaweed. It is usually dried and eaten raw. In the Mediterranean, where the plant is common, it is cooked.

Vessel's Tonnage. A vessel's tonnage is found thus: Multiply the inside length of the keel in feet by the length of the midship beam and that result by the depth. Divide the product by 94.

Deutsch. Deutsch is the native name for German. What we call Dutch, Germans call Niederdeutsch or Holländisch.

Careful Housewives WHEN PUTTING AWAY STOVES

Always give them a coat of 6-5-4 to make them rust proof. If it rains (rust) is applied the paint, it is more than any other for stoves, pipes or iron work. It makes old stoves look like new.
